Sono, 玛祖铭立Renz系列

Sono, imported from Renz in Germany

铝制支撑架让台面宛若悬浮于空中,使Sono在现代、沉稳的气质中多了一份轻盈之感,代表一种“简”而有力的工作态度与精神。

简约线条构成了Sono的稳固结构和巧妙功能,其中模块化是Sono基本原则,侧柜可根据不同储物需求选择模块数量而后组合。

桌面带滑动真皮垫,内部隐藏了笔盒、纸盘及走线等功能。侧柜带滑动文具盘,内置走线功能,升降台亦充分考虑了走线的隐蔽伸缩等问题。

The eye-catching aluminum supporting framework makes the platform afloat in air, giving Sono a sense of lightness blended with its modernity and steadiness.

Simple lines constitute the stable structure and ingenious function of Sono. Modularity is its basic principle. The combination of side cabinets is based on the quantity of modules chosen according to different storage needs.

The table is equipped with slidable leather pad, with pen box and paper box and cabling function inside. Side cabinet has slidable pen box with cabling function inside. Lifting table takes full care of flexible cabling demand.

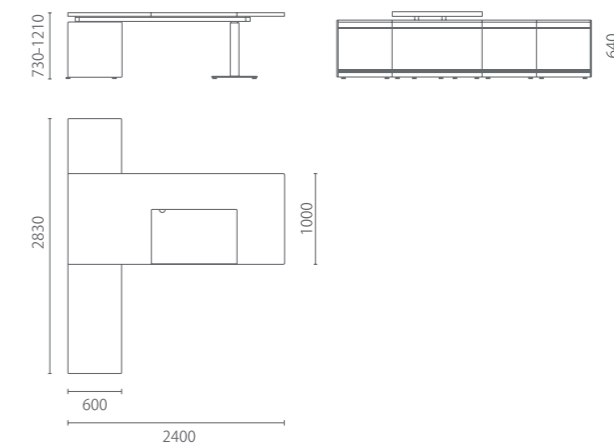

Sono将科技元素完美融合于高级行政班台中,其桌面高度可随意调节,配合不同工作状态,轻松转换办公模式。或站立讨论-简短、高效的互动沟通;或坐下来-专注思考;或根据不同使用者身材比例调节专属的舒适高度。

Sono perfectly incorporates technical elements into the premium executive desk. The height of the desk-top is adjustable to easily support different working mode: it caters for brief and effective interactive communication when the user is standing for discussion, and for deep thinking when the user is sitting. Or, the user can adjust the desk to a comfortable height suited to his/her own body proportion.
