## Simple space with boundless possibility

Norbert Geelen is regarded as a unique thinker in furniture designing industry.

He was endowed with talent to penetrate into the nature of substance, which inspired him to design a collection suitable for many scenarios.

German Classic Design , an expression of noble elegance

A chair for every office

# Uni\_verso

- Uni\_verso means overall ; the universe series biggest characteristic is the whole series, it also is a module system for almost all spaces.
- Uni\_verso is not only the first product which simple composition defines the family series, but the clever design of the modular series through main components of wood and plastic, which can be matched to different frameworks to create a rich product series.

## Customized Comfort

Every component and overall design is aimed at the healthiest sitting posture.

### **BASF chair-body**

The plastic used on the body of Uni\_verso is called –Ultramid, a special material co-created by BASF and Designfabrik. This engineering plastic features high tenacity and strength and contributes to the firm and safe nature of the elegantly slim Uni\_verso chair.

### **Ergonomic design**

The seat shell' s design is invitingly open. At the same time, the molding formed parts exude a sense of well-being and protection. The slender waist is a real eye-catcher, even more emphasized by the transition of textured and non-textured surfaces .

### **Unique “smile” design**

It helps to get rid of heat and makes it easier to move it and place it.

### **Fireproof**

It meets European standard, DIN EN 1021 part1 and part2, and British standard BS 5852 crib5.

### **Sanitation and cleaning**

Ultramid® plastics endures no more than 60°C water , and detergent and sanitizer. It meets the requirements of hospitals in terms of sanitation and infection prevention.

# One collection, infinite fun

## Style

Chair with no arm, chair with no arm and can be stacked, arm chair, arm chair that can be stacked, swivel chair with footpad or wheels, bench

## Shell material

plastics, wood

## Shell color

7 plastics colors, 2 laminated plate surface, 3 high-end veneer surface

## Surface

cloth seat, cloth cushion, cloth chair

## Frame material

steel, wood
