

SONO

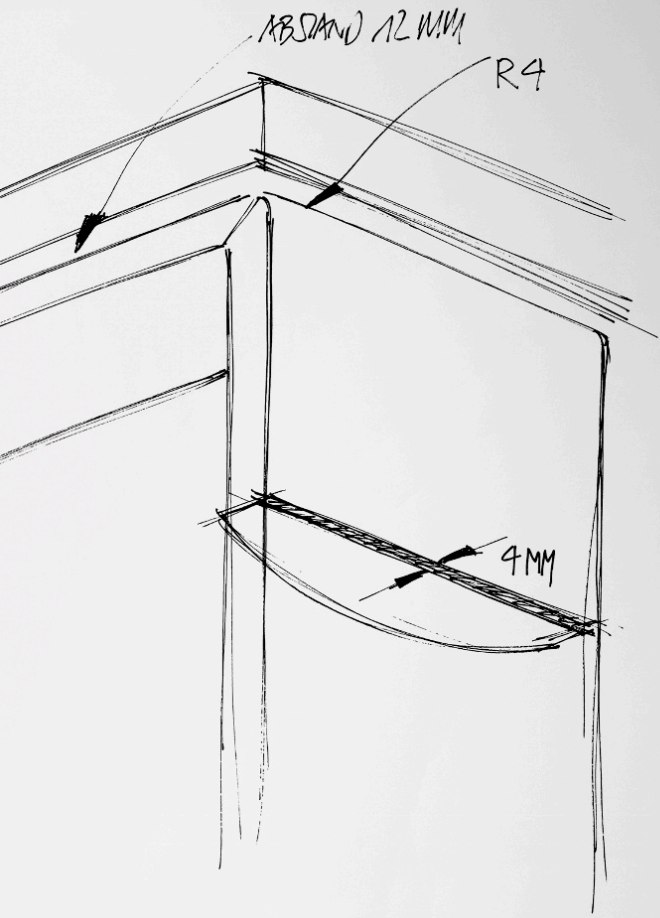

Striking visual experience Unparalleled function design

JUSTUS KOLBERG

Born in Schleswig in 1962, Justus Kolberg studied industrial design and realized many projects in collaboration with well-known enterprises. The brilliant design makes Justus Kolberg a rising star in the German industrial design field. His style features a unique, simple and natural style inspired by the modern architectural technology.

Simple yet Strong.

Different cabling methods Enable considerate designs

Smart cabling

The table is equipped with slideable leather pad, with pen box and paper box and cabling function inside.

Side cabinet has slideable pen box with cabling function inside

Lifting table takes full care of flexible cabling demand

Intelligent storage, management makes disorder Into simplicity.

Floor cabinet integrates various functions. We have different colors for you, with different effect, polished or matt, enabling flexible combination.

Floor cabinet can work as PC case, printer case, and swing door case and so on.

The back of the cabinet has two cabling channels, helping to get rid of heat and contributing to beautiful appearance.

Lifting function contributes to new and healthy office mode and lifestyle
