“领”，岂止于礼

古时，人以“领”为礼、为尊；现如今，更以“领”的各类属性区分不同的办公空间和工作类别。当下开放式办公环境的盛行，使整个办公空间的各类形态融合在一起。而Collar沙发特有的“领”型设计，不仅考虑到沟通协作，又赋予空间一定的礼仪性和私密性，给使用者绅士感。

传统办公空间中，常以隔断或墙面划分不同领域，而强调多元化办公方式的今日，在空间中可以灵活转换，让使用者自由选择，显得更为重要。“领”极具私密与安全感的造型，平滑整个空间，创造出极致的舒适感。当使用者落座后，更会被“衣领”的柔和所环绕，使整个社交场合不僵化，形成礼遇空间。

"Ling" is more than ritual

In the ancient times, "collar" was deemed as a symbol of etiquette and respect. Nowadays, the various attributes of "collar" are used to differentiate office spaces and work types. The prevalence of open office environment at present has resulted in the integration of various forms in an office space. The unique design of Collar sofa not only gives consideration to communication and collaboration, but also endows space with a certain sense of etiquette, indicates its class, and provides a gentleman-like use experience.

In traditional office space, partition or wall is often used to divide space into different areas. However, the diversity of office styles advocated today enables flexible transformation in space, and user's freedom of choice seems even more important. The sense of security and smooth style of "Collar" create an ultimate comfortable experience. When seated, the user will be surrounded by the softness of "collar". Choose "Collar" to form courteous reception in a flexible social setting.

双色“领”凸显造型

“领”的双色设计勾勒出沙发优雅的线条，一体的背板设计，营造更强的线条感。

高“领”设计更具绅士感

Collar沙发有单人和双人座宽供选择，可随心组合，适配不同的场景；两种座宽均有高背版本，“高领”沙发为使用者提供更私密的体验，营造出的绅士、包容的气度之感。

Two-tone Design of "Collar"

The two-tone design of "Collar" highlights the elegant silhouette of sofa, and its integrated back creates a contrast of clean lines.

High "Collar" Design of Gentleman Style

Collar sofa has one-seater and love seat to choose from, which can be combined flexibly when adapted to different scenarios. "High collar" version is available for both kinds, offering a more private seating experience, and creates a gentleman-like bearing with a sense of inclusiveness.

边“领”设计更具心意

另有带充电口的小边桌可供选择，通过地插或墙插，与小边桌支持柱配合上线。美观的同时，可随时为手机、笔记本电脑充电，为使用者营造更放松，设备齐全的工作环境。

Side "Collar" Design

Optional side table with charge port can be used with floor receptacle, edge receptacle or wall receptacle, with wires hid in a column. Users can charge their cell phones or laptops in a more relaxing work environment.
